

The background of the image is a photograph of a barber shop. It features brick walls, large mirrors, and several barber chairs. The lighting is warm and focused, creating a cozy atmosphere. A large, light blue diagonal graphic element cuts across the center of the image, serving as a backdrop for the text.

# BARBER SHOP BOOKING

PRESENTED BY THREE ASIAN

# Vision Of Our Website

**"To become a trusted and modern online barber platform that connects customers with the best grooming services in a simple, fast, and professional way."**

# Mision Of Our Website

**"To help local barbershops grow digitally by providing a platform for promotion and customer management."**

# WHAT INSPIRED US?

**Most men who want to get a haircut do not want to wait too long at the shop. Therefore, we came up with the idea to implement a booking system that will help save customers' time.**

# TARGET AUDIENCE?

**Men (Ages 18–45)**

**Core clientele for most barbershops.  
Needs: Regular haircuts, beard grooming, convenience.**

**Young Professionals & Busy Urban Dwellers**

**Time-sensitive individuals who prefer scheduling over waiting.  
Needs: Reliable, time-efficient appointments.**

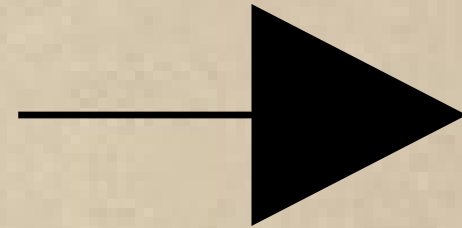

# TARGET AUDIENCE?

**Parents Booking for  
Kids (Ages 5–17)**

**Parents often  
prefer scheduling  
ahead to avoid long  
waits. Needs:  
Friendly, safe  
environment;  
family scheduling.**

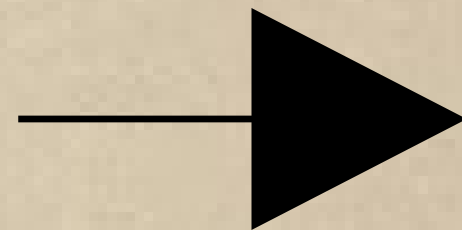

```
    .forEach(e => {  
      fileDropZone.addEventListener(e, (ev) => {  
        ev.preventDefault();  
        if (ev.type === 'dragenter') {  
          fileDropZone.classList.add('solid-border');  
        }  
        if (ev.type === 'dragleave') {  
          fileDropZone.classList.remove('solid-border');  
        }  
        if (ev.type === 'drop') {  
          fileDropZone.classList.remove('solid-border');  
          handleFiles(ev.dataTransfer.files)  
            .then(values => values.map(tag => {  
              tag.setAttribute('class', 'file');  
              fileDropZone.appendChild(tag);  
            }));  
        }  
      });  
    });  
  }  
  // to allow drop
```

**Things we used in  
developing our  
website**

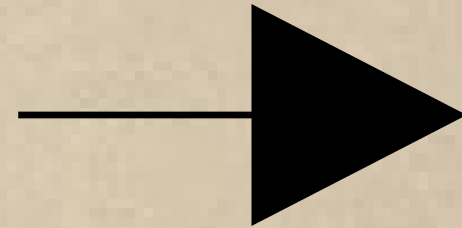

**JavaScript is a versatile,  
high-level programming  
language primarily used to  
create interactive and  
dynamic web content.**

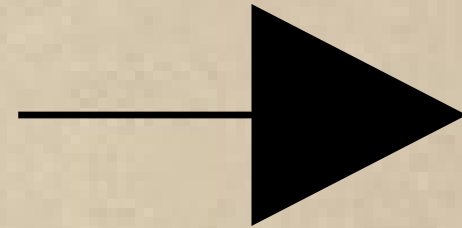

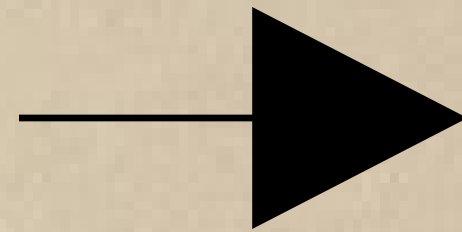

**HTML defines the layout and organization of content like headings, paragraphs, images, links, forms, and more**

**CSS to perform specific  
tasks or calculations.**

**In PHP, a function is a block of reusable code designed to perform a specific task. Functions allow you to write code once and use it many times, making your scripts more organized, efficient, and easier to manage.**

**ChatGPT is an AI language model by OpenAI that generates human-like text and responds naturally. It can assist with tasks like answering questions, writing, translating, and coding**

# **What benefits of using our website?**

## **Better time management**

**Barbers can organize their daily schedule more efficiently, reducing idle time between clients.**

## **Convenient and Flexible**

**Bookings can be made online anytime, anywhere**

## **Choose Preferred Time and Barber**

**Customers can select time slots and even their favorite barber in advance.**

# KEY FEATURES

**Online Booking System**

**Service & Pricing Display**

**Customer Reviews &  
Ratings**

**Promotions & Discounts**

**Shop Location & Map**

# **FUTURE IMPROVEMENT**

**Automated WhatsApp /  
SMS Notifications**

**Barber Performance  
Rating System**

**Membership**

**Add-on Options During  
Booking**
